

MASTER PRECISION
MACHINING INC.

Zeiss Contura Programmable CMM

**Zygo Model 5032 Ultra High Performance 3D
Surface Metrology System**

Milling Capability

A proven match for technology demanding industries for parts with complex characteristics or geometries and tight tolerances or critical surface finishes

Precision Milling Capability

- 4 Five-Axis Milling Centers
- 5 Horizontal Milling Centers
- 4 Indexing Vertical Milling Centers
- 7 Vertical Milling Centers

Surface Finish Capability

Controlling mirrored machine surface finish to achieve a sharp "knife-edge"

- *Surface Flatness of 0.5 microns or better*
- *Surface Finish of .05 microns or better Ra.*

Metrology Equipment

- Zeiss Contura Programmable CMM**
- Zygo Model 5032 Ultra High Performance 3D Surface Metrology System**
- HB400-4200 Horizontal Bench Optical Comparator**

Engineering Services
New Product Development

Demonstrated expertise and assistance to customer's unique product designs ensuring products are built to meet intended use at the lowest total cost

- Master CAD/CAM Systems**
- Solid Designer CAD Software**
- System Geopath Programming System**
- Multiple Translations Capabilities (i.e. DXF, IGES, SAT, etc...)**

Supply Chain Management

Utilizing JobBoss Floor Shop Software for Production Control and Capacity Planning

Supporting Global Supplier Managed Inventory Programs through 3PL warehouse

Managing our Customer's supply chain; including, but not limited to: Plating, Painting, Heat Treat Machining, Lapping, Grinding, Raw Material and Tooling

ISO Certification

ISO 9001:2000 Certified since 2004
